

TENSHEY

Leadership Team Building Workshop

OUR MISSION

We're here to help women reach new professional heights and support organizations in creating an inclusive, gender-diverse workplace.

OUR TEAM

Tenshey's transformational coaches have proven success in helping executives at global, Fortune 500 companies as well as small and medium businesses to lead and grow.

"Teamwork is the ability to work together toward a common vision, the ability to direct individual accomplishments toward organizational objectives. It is the fuel that allows common people to attain uncommon results."

- Andrew Carnegie

Culture eats strategy for breakfast. Tenshey's Leadership Team Building Workshop will help you create healthy cultures by design, not by chance.

We believe building a solid, sustainable office culture begins with leadership and ends with the employee, with everyone being accountable for their contributions.

This two-day workshop is customizable based on how well the leadership team members know each other, how cohesively they are working together and the challenges they are tackling.

Sample modules include:

- Aligning individual, team and organizational values
- Effective communications and collaborations
- Trust building

Tools may include values exercises for each leadership team member and 360 leadership style assessments.

By the end of the workshop, the leadership team will gain better perspectives in building trust with each other individually and as a team, and fostering a stronger collaborative culture. The workshop will be prepared and facilitated by Tenshey's executive coach(es) in collaboration with the client's project sponsor.
